

Instruction for Annexes

Tall

Standard

1. Remove the Awning's side panel.

2. Zip on the annex and assemble the frame as illustrated at the top.

Tall

3. Insert the frame into the Annex. Attach "Pole 1" to your awning, using the screw-on clamp.

4. Secure your Annex with the ladders & pegs provided. For extra security apply tie down straps (optional extra) to the buckle points on the outside as highlighted in the diagram above on the right. (↓)

Standard

5. Inner tent (optional extra) can be simply clipped onto the frames from inside.
